Professional Reliability with Titanium V30

Exascend's Titanium Series V30 SD cards combine outstanding read and write speeds with rugged metal construction, enabling smooth 4K UHD capture and fast transfers.

Built to endure challenging environments, these UHS-I SD cards are engineered with advanced flash management and robust durability, making them the ideal choice for professional photographers.

Built to Last – Key Features

- Alloy metal casing, crack-resistant and bend-resistant
- Withstands up to 200N pressure, 20× stronger than standard SD cards
- No write-protect switch, more reliable
- Laser engraving, long-lasting durability
- V30 certified, with sustained write speed of 60 MB/s
- No dropped frames - just pure performance
- Generous limited-lifetime warranty

Designed for Demanding Shoots
